Directions:

Match the DSP mats with the corresponding Real Red mats and adhere. Adhere these mats to the Secret Sea strips with the long mat on the left, the two square mats on the right. (your strip should be LONG - SHORT - SHORT panels when you look at it.) Be sure all three of the strips are adhered this way, and if there is a pattern such as a diagonal stripe, be sure to match directions of the stripe.

Fold the large Secret Sea piece on the score line, but this piece has the two score lines on the left (opposite the strips of Secret Sea's score lines).

Look at the picture below to see a top view of the card:

Starting with the top strip, adhere the long strip end to the back piece, matching edges at the top of the card and only put your adhesive on the end of the the strip (no wider than 1 ½ inches)

Go to the bottom of the card base and add the 2nd strip in the same manner.

That leaves the remaining strip, and it is centered between the top and bottom strips. Adhere.

Open the entire card base and lay flat. Adhere the far right end of each of the strips.

Adhere the DSP/ Real Red mat to the front of the card being sure that your adhesive only is on the strips.

Stamp label and adhere with dimensionals.

Stamp your verse on the large white mat, adhere this to the Real Red mat, and adhere to the back of the card base.

Embellish with gems.
